Beschrijving

The Solarcon Antron A99 omni-directional antenna comes in three easy to assemble sections. Insulated up to 14,500 Volts and can handle 2000 Watts of power. The 1/2 wave antenna with high gain, SWR tuning and broad bandwidth covers far above and below the traditional CB channels. Heavy-duty mounting plate withstands greater wind loads. Can be used for export, commercial and 10 Meter ham radios.

Solarcon GPK-1

The Solarcon GPK-1 is the original ground plane kit for use with the Solarcon Antron A99.

Frequency range: 26 - 30 MHz (tuneable)

Electrical data

- Gain: 9.9 dBi
- Maximum continuous power: 2000 Watts (CW)
- Impedance: 50 Ohm
- Polarization: Linear vertical
- Install GPK-1: at the base of the Solarcon Antron A-99 antennas

Mechanical data

- Materials: Fiberglass
- Height: 5500 mm (including bracket)
- Weight: 3000 gram
- Mounting type: On mast
- Antenna connector: UHF-female
- Radials length: 4x 1778 mm

Productinformatie

Artikelnummer	A99+GPK1S
Merk	SOLARCON
Is on Sale	Nee
