Beschrijving

The Sirio Monsoon is a new 10-11 meter base station antenna with a bottom tuning system, tunable between 26-30 MHz.

Big coil made of a Ø 6 mm aluminium wire, AWG-3. Similar strong PC insulator with reinforcement fins as the New Tornado 2024.

High power handling 1000 Watts (CW) continuous and 3000 Watts (CW) short time. Including the well-known top anti-static cage. Low radiation angle for excellent DX.
