Beschrijving

Patterned after the number one selling K40 Baseload Antenna, the K30 is ideal for the CB'er who wants maximum performance from their antenna, but in a smaller, more versatile design.

Computer designed and made in the USA, the K30 Antenna features a 14 gauge coil wire for maximum power handling, 15 feet of pre-wired RG-58, 95% shielded coax cable with pre-terminated connectors, and a 35" whip for low clearances. A heavy-duty 10 oz. magnetic base is strong enough to remain secure to any vehicle, even at high speeds, and makes mounting and removal of the antenna effortless. So it's perfect for multi-car families or use on leased or rented vehicles.

Frequency range: 27 MHz

Electrical data

- Electrical type: Base loaded
- Maximum continuous power: 500 Watts
- Power peak: 600 Watts
- Impedance: 50 Ohm
- Polarization: Linear vertical
- Cable length: 4.5 meter / RG 58

Mechanical data

- Height: 90 cm
- Mounting type: Magnet

Inside the box

- Antenna: Yes
- Radio connector: UHF-male (PL)
- Mounting parts: Yes
- Antenna cable: Yes
- Installation manual: English

Productinformatie

Artikelnummer	K30
Merk	K40
Is on Sale	Nee
