

## VARISTOR 30VAC/38VDC 1200A 9MM

€ 1,09

Excl. BTW: € 0,90

### Afbeeldingen

### Beschrijving

#### Features

- Round varistor element, wired
- Epoxy resin coating, flame retardant to UL94V-0
- No derating up to 85°C ambient temperature

#### Technical Specifications

|                              |              |
|------------------------------|--------------|
| Storage Temperature:         | -40...+125°C |
| Temperature Range:           | -40...+85°C  |
| Test Voltage, Min.:          | 2500Vrms     |
| Insulation Resistance, Min.: | 10MΩ         |
| Response Time, Max.:         | 25ns         |

| Part Nr.            | $U_{RMS}$<br>[V AC] | $U_{dc}$<br>[V DC] | $U_V$<br>[V] | $DU_V$<br>[%] | $U_S$<br>[V] |
