Beschrijving

Features

- Analog controlled soldering station with analog display
- Antistatic housing
- Temperature control variable from 150°C to 450°C with rotary potentiometer
- Auto tool recognition
- All Temtronic tools up to 80W may be connected
- Accuracy $\pm 2\%$ of final value
- Visual control with LED

Technical Specifications

- Dimensions (LxWxH): 166x115x101mm
- Mains Voltage: 230V / 50/60Hz
- Output Power: 80W

Protection Class: 1 (Power Unit) and 3 (Soldering Irons)

Temperature : 150...450°C

Accuracy: ±2% from End Value

Equipotential Bonding: 3,5mm Jack

Productinformatie

Artikelnummer	WS81
Merk	WELLER
Is on Sale	Nee
