Beschrijving

Built-in horn speaker with 100 V transformer. Waterproof design. Housing made of black lacquered aluminium, horns made of polypropylene (PP). High IP protection class (IP 67), high sound pressure and good voice reproduction. Ideal for inconspicuous installation due to the very compact dimensions. The potential equalisation connection is by means of an M6 grub screw on the rear of the housing. The connection is via a four-core, halogen-free flexible cable (0.5 m).

Typical applications:

- PA systems in factory halls, railway stations etc.
