Beschrijving

Construction

- Vacuum encapsulated, bobbin with two chambers
- Leads through soldering pins to accommodate PCB mounting
- Designed to match VDE 0570 and EN61558 regulations
- Fully tested at primary and secondary voltage of 6000V, leakage and sparking distance in air is at least 10mm
- Types with double primary and secondary windings (2x115V) suitable for application in 115V as well as 230V power supplies

Size

Performance	Height h [mm]	Weight [g]
40VA	38,7	780
60VA	47,9	1100

Productinformatie

Artikelnummer	2120600MLP
Merk	HAHN
Is on Sale	Nee
