
SOLDEERTIN 100GR 0.3MM SN95AG4CU1 VLOEIMIDDEL 3,0%

€ 49,50

Excl. BTW: € 40,91

Afbeeldingen

Beschrijving

Halide-free activated
developed to cope with the higher process temperatures at lead-free soldering
very low spitting of flux
with micro doted alloys for the low solder tip consumption
High activity, good spread and high residue reliability
Flux residues - can be left on the PCB
Hand and robot soldering
Electronic and Electrical industry

Technical Specifications

Melting Point: 217°C

Flux Type (IEC 61190-1-3 RELO): 1.2.3.B

Flux Content (EN 12224): 3%

Corrosive Effects (DIN 8516): None

Alloy(FLOWTIN TSC): Sn95Ag4Cu1/713

Flux Core: 1 Core

Artikelnummer	SLV22/0301
Merk	STANNOL
Is on Sale	Nee
