Beschrijving

Handy for making wire harnesses or jumpering between headers on PCB's. These premium jumper wires are 300mm long and come in a 'strip' of 10. They have 0.1" male header contacts on either end and fit cleanly next to each other on standard-pitch 0.1" (2.54mm) header. The best part is they come in a 10-pin ribbon cable. You can always pull the ribbon wires off to make individual jumpers, or keep them together to make neatly organized wire harnesses.
