Features

Efficient tool, easy to handle and use

Ideal for all common coaxial cables of approx. 4,8...7,5mm outer diameter (e.g. antenna and transmission cables)

In a few steps the coaxial cables are ready for connection, in two or three stages the stripped braid, the dielectric and the internal wire are exposed without damage

Also strips stranded cables such as 3x0,75mm², 10mm², 16mm²
