Beschrijving

Thermally conductive foil both sides adhesive

width 25 x 50mm

description

insulating, double sided adhesive

overall thickness: 0.127 mm

truss material polyimide: (Kapton MT) 0.025mm

glue layer: acrylate (pressure sensitive) double-sided

thermal conductivity: 0,37 W/m·K

specific thermal resistance Rth: 3.7°C cm²/W

temperature range: -30°C... +125°C

holding force (overlapping): 0.86 MPa

holding force (shear rate)

Al 25°C 0.897 [MPa]

Al 150°C 0.345 [MPa]

Cu 25°C 0.828 [MPa]

Cu 150°C 0.31 [MPa]

Al₂O₃ 25°C 1.17 [MPa]

Al₂O₃ 150°C 0.34 [MPa]

dielectric strength: 5 kV (AC)

class of flammability: UL 94 V-0
